B.A. in Cognitive Science  
B.A. in Data Science

## Skills

Design Thinking  
User Research  
Rapid Prototyping  
Visual Design  
Sketch  
Adobe Suite

HTML + CSS  
Javascript  
Python, Pandas  
JAVA

## Awards

**CMYK Designathon**

*Most Original, 3rd Place*  
Designed a marketing campaign for Games of Berkeley

## Experience

**UX Design Intern — IBM Design**

Jun - Aug '18

Designing a mobile app to empower healthcare workers in low resource settings, in partnership with the International Society for Infectious Diseases. Driving complete mobile app design cycle — from needfinding to coded prototype — alongside multidisciplinary team of five.

**Design Director — SkyDeck**

Jan '18 - Now

Initiated and created an internal student design team at SkyDeck, UC Berkeley's largest startup incubator. Work alongside startups to identify design needs, and lead 9 designers in projects for SkyDeck teams.

**Product Design Intern — Rainforest**

May - Aug '17

Designed and shipped two core platform features in Rainforest's test execution workflow by partnering with PMs and engineers. Helped define and implement a new design language, and create scalable design processes in a start up environment.

## Extracurriculars

**Berkeley Innovation — President**

Lead team of 12 officers and 32 consultants in executing 8 projects partnerships with industry clients. Oversee recruiting, marketing, education, and on campus events. Previously served as External VP, Marketing Director, and Sponsorships Director.

**Innovative Design — Web & Visual Designer**

Design logos, flyers, and visual brand assets for organizations throughout Berkeley. Coded and deployed functioning websites for clients with Innovative Design's web team.
